Electricity

is no less the power of the age for paper mills than for the numberless mills of every description now using it.

The story regarding its economy, cleanliness, flexibility and general desirability cannot well be told here, neither can the story about

Lundell Power Motors

But Lundell Motors have been hand in hand with progress in "frictionless transmission of power," and are everywhere regarded with great favor.

Paper manufacturers should not neglect to observe what electricity can do for them; neither should they fail to give us a hearing.

Sprague Electric Company

WATERTOWN,
N. Y., U. S. A.

PREFACE.

WE PRESENT herewith the TWENTY-FOURTH Annual Edition of LOCKWOOD'S DIRECTORY of the Paper and Stationery Trades for 1898-9, and offer our usual summary of changes in firms and among the mills in the United States and Canada during the past year.

Following is a comparative statement of this year with last preceding report of mills in the United States:

	1897.	1898.
Number of Mills,	1,178	1,174
" " in operation,	1,067	1,067
" " idle,	111	107

The mills reported, as above, are owned or operated by eight hundred and six firms or establishments, this being a decrease of one hundred and five in the number of firms. There are one hundred and seven mills reported as being idle—a decrease of four from last year. Twenty-one mills have been abandoned. Seven were destroyed by fire, one of which is to be rebuilt. Our reports show that the number of mills in operation is the same as at this time last year. There are now six mills under construction.

There are eighty-six mills in the Dominion of Canada, owned or operated by forty-eight firms or establishments. Five of these mills are idle. One mill has been abandoned since last year. One mill is now under construction.

We also give a list of mills in the United States of Mexico, in South America, and in Japan.

Following our custom we have made a separate record of mills which have been reported to be idle. Under this head will be found locations of mill properties which may still be made available for paper making, or which can be utilized for other purposes. This separation also tends to make the list of mills actually in operation all the more valuable.

We continue to make a separate list of Pulp and Chemical Fibre Mills.

The Index to Mills will be found very complete, and should always be consulted when looking for individual firms.

In this edition will be found a list of Paper Dealers and Stationers, wholesale and retail; Manufacturers of Glazed, Coated, Waxed and Parchment Papers and Cardboard; Blank Book, Paper Bag, Paper Box, Enve-

lope, Pad and Tablet Manufacturers; Wall Paper Printers and Railroad Purchasing Agents in the United States.

The business announcements have been classified carefully, and this list constitutes the *BUYERS' GUIDE TO FIRST HANDS*, and will be found of great use in placing orders. An Alphabetical Index to Advertisements appears as usual.

For all additional statements of changes in the trade, current news, technical articles and market reports, we refer our subscribers to the columns of *THE PAPER TRADE JOURNAL* (every Saturday) and *THE AMERICAN STATIONER* (every Thursday).

Advices as to changes, removals and business orders for insertion in the next edition should be sent in on or before April 1, 1899.

LIST OF ABBREVIATIONS USED IN THIS DIRECTORY.

S. P.—Shipping Point.

Pop.—Population.

M. O.—Money Order.

Tel.—Telegraph.

Ex.—Express.

RR.—Railroad.

(*b*)—Booksellers selling stationery.

(*d*)—Druggists selling stationery.

(*b, d*)—Stationers selling books and drugs.

* Wholesale stationers.

 ALWAYS CONSULT GENERAL INDEX TO MILLS.

FARREL FOUNDRY

ANSONIA,

CHILLED AND DRY SAND ROLLS

FOR ALL PURPOSES.

We call attention to our improved box housings shown above, insuring greater strength and rigidity than can be obtained in web design. This is especially desirable in the 12 and 14-roll stacks for news machines.

NOTICE system of bevel gears, worms and worm gears, vertical and cross shaft (patent applied for) by means of which the rolls may be lifted by one man standing on the floor. The adjustments are made in the usual manner, but one man raises the rolls from below instead of two or four men above. The advantage, in a high-speed machine particularly, is very great.

MANUFACTURERS OF THE

PATENT POOLE GRINDING MACHINES.

To grind chilled rolls up to 36 inches in diameter, by 180 inches on the face.

***The Largest Manufacturers of Chilled
Rolls in the World.***

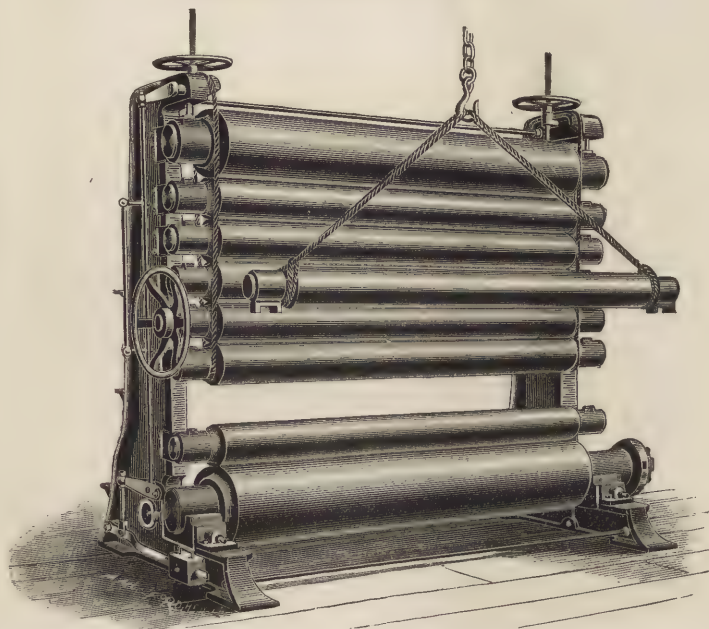

FRANKLIN FARREL, PRESIDENT.

FRANK E. HOADLEY, SECRETARY.

AND MACHINE CO.

CONN., U. S. A.

IMPROVED OPEN FACE HOUSINGS (Patented), SO ARRANGED
THAT ANY ROLL CAN BE REMOVED WITHOUT
DISTURBING OTHERS IN THE STACK.

NOTICE.

FIRST—Strength and Simplicity of housings.

SECOND—Lift rods of flexible wire rope or chain (patented), fastened at one end to screws and at the other end clamped to back side of frame; operated by hand wheels above, so that the rolls may be raised or lowered. When not in use ropes may be detached from housings if desired.

THIRD—System of triple compound levers.

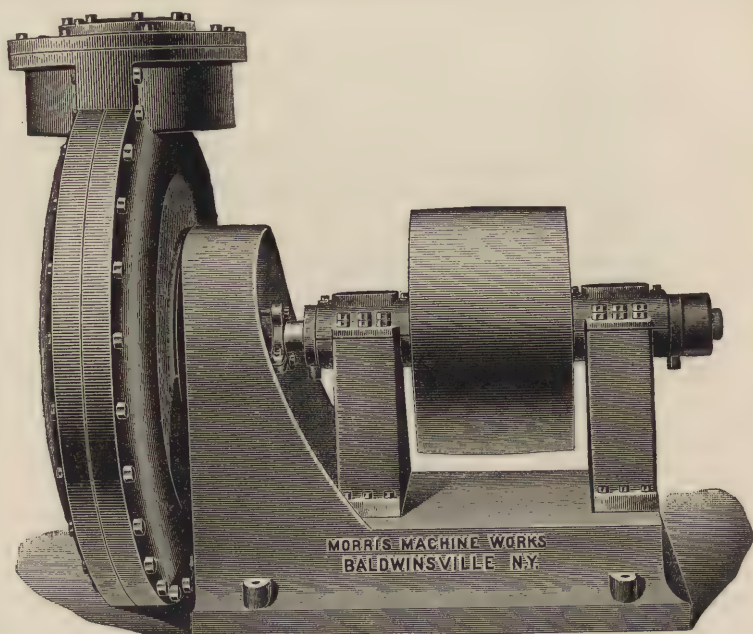

FOURTH—Adjustment of bottom roll by set screws.

CHARLES F. BLISS, TREASURER.

THE "MORRIS SPECIAL."

The attention of paper and pulp manufacturers is called to this new pump, designed expressly for use in paper and pulp mills. This pump is a new departure in many respects. It will run equally well in either direction. We claim that it will take less power, last longer and need less repairs than any pump at present manufactured. Every part is made extra

heavy; the case especially being very thick and securely bolted. The bearings are long and fitted with removable bushings, which can be taken out quickly, and with little trouble, for examination or renewal. An extra set of these bushings is furnished with each pump. The shaft is of large diameter, and the stuffing box is of an improved design, which can be repacked without disturbing the shaft. Send for catalogue containing full description, illustrations and prices.

WE BUILD THE VERY BEST MACHINES

WE MAKE A GENERAL LINE
OF PAPER MILL MACHINERY.

Telephone, 320 Lawrence, Mass.

Fine Engines make fine Papers, and this type of patent engine is doing it in 100 different instances in this country. Write and we will refer you to the leaders in your special line who are using them.

For this Engine we have received a second, a third and a fourth order in almost every instance where we have placed one.

— WE BUILD —

— WE MAKE —

Hollander Beaters,
Savage Patent Stuff Chests,
Common Stuff Chests,
Vats and Drainers.

Pulleys and Shafting,
Cylinder Moulds,
Jordan Filling,
Bars and Plates.

Emerson Manufacturing Co.,

LAWRENCE, MASS.

AFTER THE BEST MODERN IDEAS.

Wire at our expense if you are in the market.

This is a Cut of our No. 1 PATENT JORDAN, which for
QUALITY and QUANTITY has NO EQUAL.

We are the ONLY Manufacturers of IMPROVED Jordan
Engines in the country. We have sold
over 500 Jordans.

Emerson Manufacturing Co.,

LAWRENCE, MASS.

ANDREW G. PAUL SYSTEM

AS IMPROVED AND PERFECTED

...FOR...

Steam Heating or Drying.

WHEN APPLIED TO ANY PAPER MACHINE

Will keep the Cylinders Free from Air and Water, add to the Efficiency of the Paper Machine, give a Uniform Temperature throughout each Cylinder, and Utilize Exhaust Steam.

...APPLIED TO...

HEATING CIRCULATIONS, LOFTS,
COIL HEATERS, Etc.,

Will Circulate Exhaust in Combination with Live Steam without Back Pressure on the Engine.

IF YOU WISH TO INCREASE YOUR PRESENT PRODUCTION
OR MAKE A SAVING IN FUEL WRITE US.

FULL PARTICULARS GIVEN ON APPLICATION.

PAUL SYSTEM COMPANY,

10 Federal St., Boston, Mass.

WESTERN OFFICE:

1212 FISHER BUILDING,

PAPER TRADE JOURNAL. Pioneer publication. Best advertising medium in paper industry. Established in 1872. Published weekly. \$4.00 per annum. THE HOWARD LOCKWOOD PUB. CO., Publ'rs, 143 Bleecker St., N. Y.

This May Interest You.

To meet a frequently expressed request of those who require a copy of LOCKWOOD'S DIRECTORY whilst traveling around the country, we have this year issued, in addition to the regular edition, a limited number of copies of the TWENTY-FOURTH EDITION OF LOCKWOOD'S DIRECTORY, to be known as THE TRAVELERS' EDITION. These copies are printed on light paper, are bound in soft, flexible covers, and contain, in addition to advertisements, *only those portions of the regular edition that relate to the paper trade*. They are intended solely for the use of traveling men interested in paper or paper making.

Price \$2.00, postpaid. Address
